

Lauren Mullinder Illustration

School Visits

Illustrator visits and workshops allow students to engage in fun and interactive sessions, learn new drawing techniques and explore the world of visual narrative literacy. Workshops include a Q&A session, a hands-on drawing workshop and class/group or 1-1 feedback.

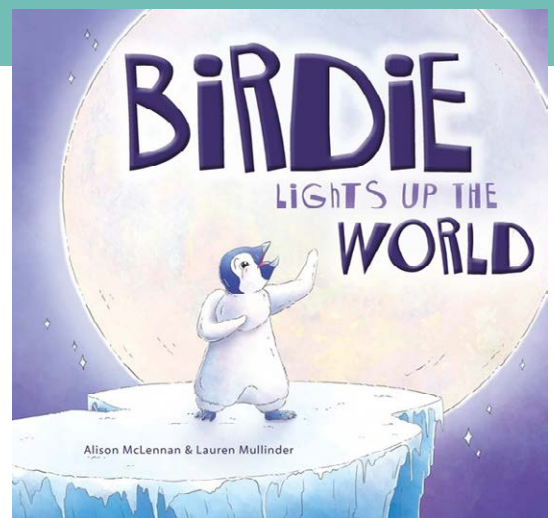

These sessions can be themed to fit with current school events, class projects or curriculum content. A standard session runs for 45 min-1 hour, but custom sessions can be designed upon request including longer sessions or a series of workshops (i.e. over 2-8 weeks).

NEW Book in 2023!

Birdie Lights up the World

Birdie the penguin believes she is the chosen one who lights up the world every night with her song. When the sky lights up without her one evening, she is left feeling lost and confused. Birdie tries to learn the work of other zoo animals, without much success — until her friends help her realize her true purpose.

Available June 2023.
